

The Leafy Tree 2019 Errata Notice

Color Number Correction

Due to an error in manufacturing & distribution, there is a discrepancy between the colors available in some of the kits and the colors listed in the instructions.

If you purchased the last round of kits & e-book bundle (from October 9, 2019 forward), your colors are correctly listed in the instructions.

In previous editions of the instructions, color #2010 (found predominantly on page 9 of the stitch and color list guide by number) should be substituted with 2513. Anywhere you see "2010" listed as the required color, use 2513 instead.

2010 in your kit is a rusty brown, and it is suitable to mix into the trunk and into the darker rust / brown / red leaves. 2513 is a brighter orange, which mixes in with the yellows at the top of the tree.

Fishbone Stitch

In some editions of the e-book, the Fishbone Stitch instructional page is missing.

If you are missing the fishbone stitch page and would like it included in your copy, email me at mary@needlenthread.com for the updated edition (which will also have the color correction mentioned above). Please make certain you are using the email address you used to purchase the original kit.

I apologize for the inconvenience and thank you for your patience!
